Hospital Toilet Lift Seat[®]

The Hospital Toilet Lift Seat[®] combines our breakthrough LiftTek[™] Core Assistive Technology with the bedside to bathroom flexibility to deliver the most advanced toilet transfer solution available for your hospital, patients and staff

KEY FEATURES

205kg/32st Safe Working Load

Reduces the risk of staff and patient injury by delivering the hip, knee, and ankle joint support required during the sit-to-stand motion path

Moves easily and locks in place to provide bedside and over-the-toilet assistance anywhere in your hospital

Converts hospital toilets to EA 2010 compliant increased height and weight rating without costly building and plumbing modifications

Seat height is easily adjustable to accommodate patients of varying height

Wide, ergonomic, easy-to-clean transfer seat is built flush to the seating platform base, and features stable grab bars which can be lifted to facilitate lateral transfers

Pod design encloses mechanics for easy unit cleaning; open front enables easy cleaning of toilet and surrounding area

Innovative drop-in commode bucket hygienically accommodates bedside toileting needs

Hand control gives the carer the ability to operate the lifting process

The Bedside to Bathroom Toileting Solution

Whether used bedside or over-the-toilet, the unique design of the Hospital Lift Seat delivers a safe, stable, easy-to-use toilet transfer solution that greatly reduces the physical force required by the carer to help patients on and off the toilet. The Hospital Lift Seat also moves easily from room to room to support all toileting needs.

Flip Up Grab Bars

Stable grab bars can be lifted to facilitate lateral transfer

Power Options

Can be configured with AC power or a DC rechargeable battery.

Over-the-Toilet

The Lift Seat helps hospitals comply with today's taller EA 2010 compliant toilet height and increased weight requirements without costly building and plumbing modifications.

Hand Control

Hand control gives the carer control of the lifting process.

Portable Bedside Commode

With our reusable, elongated drop-in commode bucket, the Lift Seat offers a portable, reliable motorised bedside commode solution. The smooth, secure swivel locking wheels and ergonomic push bar make it easy to position the Lift Seat at bedside when needed.

Height Adjustable Seat

Easy seat height adjustments help accommodate varying patients heights

Swivel Locking Wheels

The large wheels can be set to lock in place, allow straight motion only, or swivel freely.

Hospital Lift Seat Specifications

Height: 89cm (35") (at push bar) Seating Height: 48cm/55cm (19"/21.5") (adjustable)
Width: 61cm/55cm (24"/ 21.5") (outside/inside grab bars) Base Footprint: 66cm x 68cm (26" x 27")
(*Hospital Lift Seat for non-bariatric patients also available SWL295kgs/45st)

All LiftSeat® models are powered by LiftTek™ Core Assistive Technology to reduce the physical force necessary to support the sit-to-stand motion path required for getting on and off the toilet. LiftTek™ is the result of ground-breaking research and product development focused on the biomechanics, kinematics and human factors related to toileting.
